Hand Dryers

Why ecoDRY?

Airflow Developments Limited have recently re-entered the Hygiene Products market segment with a range of “eco – friendly” hand dryers. The ecoDRY series are very efficient, only using a mere 2.3 W per drying cycle. They are exceptionally hygienic with various protection technologies incorporated into the manufacturing process to ensure the product achieves the highest level of protection possible.

Boasting a contemporary design the ecoDRY product will blend into any washroom whilst delivering the performance you would expect of any product from the Airflow stable of products.

ecoDRY mini

ecoDRY mini hand dryers are available in white or Satin Chrome ABS plastic finishes. Being one of the smallest hand dryers on the market, they are ideal for smaller washrooms and where space is limited. They offer customers an ideal entry level product that excels in the performance / energy consumption/ cost parameters.

ecoDRY

ecoDRY 550 hand dryers are available in white ABS plastic and Satin Die Cast Aluminium finishes making them ideal for any washroom. The exceptionally low energy consumption will keep electricity costs at a minimum and help reduce carbon emissions when comparisons are made to other forms of drying your hands.

The new ecoDRY 1100 has a heating element for those who prefer the conventional warm air drying system.

ecoDRY mini

For use in washrooms

KEY FEATURES

- ABS White Plastic – or Satin Chrome
- Automatic Sensor Operated
- Air speed 200 Km/h
- Air flow 110 m³/hr / 31 l/min
- 28,000 rpm
- 400 watt motor / 500 watt heating element
- 20 second drying time
- Low noise level 70 dB(A) at 2 m
- Flow air flow outlet – stream of air
- Smallest hand dryer in class – less than 10 cm in depth
- Optimum performance/ energy consumption / cost ratio
- CE, IP23 rating and double insulated
- Electricity Supply 220/240 V – 50/60 Hz
- 3 Year Warranty

Hand Dryer

Airflow are pleased to introduce one of the world's smallest hand dryers – the ecoDRY mini. The ecoDRY mini is ideal for washrooms where space is limited as it only protrudes less than 10 cm from the wall when fitted. Taking a mere 20 seconds to dry one's hands, it consumes minimal energy and boasts an excellent

performance/ energy consumption/ cost ratio making it the ideal choice for customers looking for an entry level hand dryer.

ecoDRY mini is another inspiring design Airflow is proud to have in their ecoDRY portfolio of hand dryers.

ecoDRY

For use in washrooms

KEY FEATURES

- White ABS plastic / satin die cast aluminium
- Air flow 187 m³/hr / 3500 l/min
- Automatic sensor operated
- LED "Blu" down-lighter when in use
- Air speed from 250 Km/h
- ecoDRY 550 Cool air, only 2.3 W per drying cycle
- ecoDRY 1100 Warm air
- Very quick 10 -15 second drying time
- Low noise level from 68 dB(A) at 2m
- Flow air flow outlet - blade / air curtain
- Revolutionary double level anti-bacteria protection system
- Agion® Silver Antimicrobial treated
- IP23 rating
- 3 year warranty

550 w - 1100 w Hand Dryers

Airflow are proud to present an Eco-Hygienic Drying System – the ecoDRY has double antibacterial protection as the internal plastic parts are treated with Agion® Silver Antimicrobial reducing bacteria on the dryer's surfaces.

ecoDRY offers superior performance in drying time at a very quick 10 – 15 seconds.

ecoDRY 550 cool air unit only consumes 2.3 W per drying cycle hence qualifying for Airflow's ecoair accreditation.

ecoDRY 1100 models have heating elements for those who prefer a conventional warm air drying system.

The product boasts a contemporary design with ergonomic features making it stand out from the competition – a drying system to aspire to for your wash room.
