# About Us

## Who are we?

Airflow has earned its reputation for enhancing indoor air quality and ventilation through industry-leading, innovative products. Our comprehensive range supports every type of building from commercial to residential and RMI. We offer one of the largest product ranges from single smart extractor fans to mechanical ventilation with heat recovery that is Passive House certified.

We work closely with architects, construction, and M&E professionals helping them select the right solutions that meet their project needs and comply with the latest government regulations.

## Our Mission

Since 1955, Airflow's mission has been to lead the way in creating healthier indoor air environments through innovative, energy-efficient, reliable, and sustainable ventilation solutions

## Our Vision

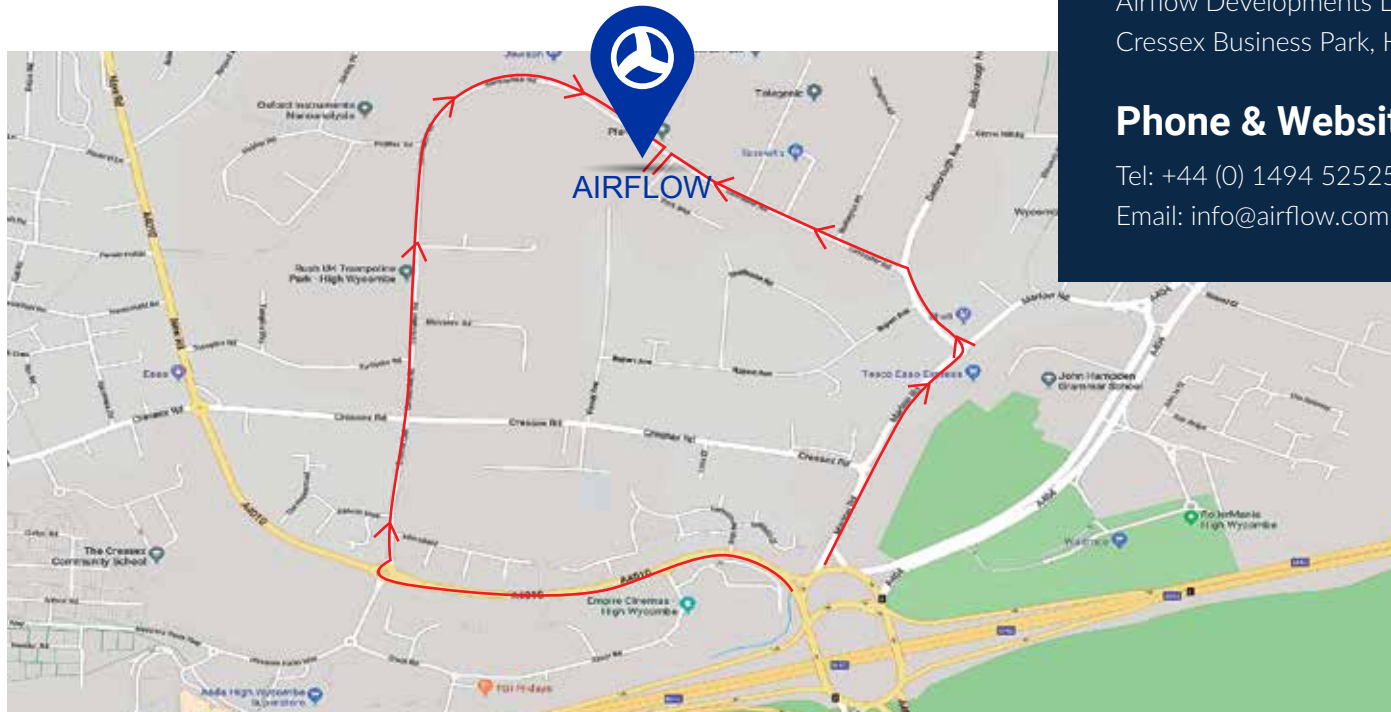

To be the benchmark for excellence in ventilation, combining engineering expertise, innovation, and sustainability to improve indoor air quality.

# Location

## Location Details

**By Road:** The Air Academy is based at Airflow Developments Limited, less than a mile away from Junction 4 of the M40 motorway, at the heart of Cressex Business Park. For convenience the building also has access to 40 free on-site parking spaces.

**By Train:** We are also easily reached by train - High Wycombe Station (3 miles away) is on the Chiltern Line which runs directly into London (40 minutes) and Birmingham (2 hours).

# Welcome

Welcome to Airflow's state-of-the-art Air Academy showroom, training facility and conference centre.

# About Our Venue

## Air Academy

Excellence centre

Airflow's state-of-the-art Air Academy showroom offers an immersive and interactive environment, showcasing our full product range. It also highlights the history of Airflow and the many achievements made over the years.

In addition to showcasing our products, the Air Academy functions as a training center, hosting CIBSE CPD seminars. The venue is also available for hosting conferences, events, and corporate meetings.

## How To Book -

### Step One

To arrange a time for you to visit the Air Academy or hire out the conference facilities, please contact your Account Manager or alternatively contact Airflow on:

+44 (0)1494 525252 or e-mail [info@airflow.com](mailto:info@airflow.com).

### Step Two

We will customise your visit to your requirements and confirm all arrangements for you.

# Meeting Room Overview

Area 2

Area 3

# Kitchen

The Air Academy Kitchen is fully equipped with modern appliances and a practical layout that complements our meeting rooms and event spaces.

Designed to support catering for meetings, training events, and refreshment breaks, it provides a seamless experience for your team and guests. Its spacious design allows teams to prepare, serve, and enjoy food comfortably.

# Sustainability

## Implemented

We understand that our actions shape not only our business, but also the environment and the communities we serve. That's why we're committed to integrating sustainability into every aspect of our operations, from reducing our environmental footprint and minimising waste to enhancing energy efficiency.

Here are some of the initiatives we've implemented:

- Installed 108-panel solar PV system.
- Added thermodynamic panels for water heating.
- Upgraded to motion-sensor LED lights.
- Operate one air source heat pump and seven MVHR systems to improve both air quality and energy efficiency.

## In progress

We know we're still at the beginning of this journey, but we're taking meaningful, practical steps today while continually learning and improving along the way. For us, real progress is built on honesty, consistency, and a long-term vision, because doing right by people and the planet goes hand in hand with building a resilient, future-ready business.

Here are some of the things we are taking the steps to implement:

- Measure complete supply chain (Scope 3) emissions.
- Achieve zero waste to landfill.
- Collaborate with supply chain to reduce emissions.
- Increased recycled content in products and packaging.

# Room capacity & Features

## Free WiFi

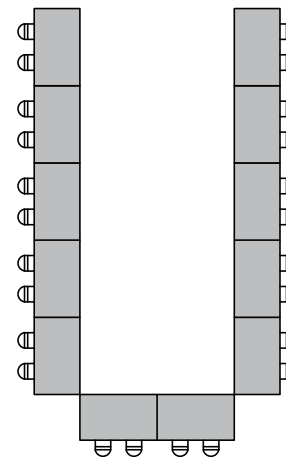

Throughout the venue.

Layout plans for table arrangements are available for the conference room.
